Key Knowledge

1. To explain how seeds and bulbs grow into plants
2. To know that vegetables are grown from plants
3. To name and label stem, leaves, roots, blossom, fruit, petals and flowers
4. To know that plants need water, light and a suitable temperature to grow and stay healthy
5. To understand how and where pumpkins are grown and how wheat is used to make bread

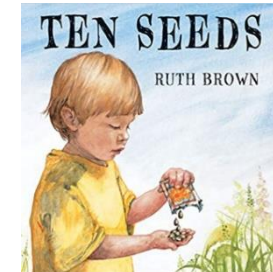

Farming Robins: Growing Plants

Some crops are harvested using a combine harvester.

Plants need water, sunlight, soil and the right temperature to grow.

Plants use the soil to get water and nutrients (food).
